**Subject:** Quality in Careers Standard revision

Dear Minister

I am writing to advise that the Quality in Careers Consortium Board met on Friday, 18<sup>th</sup> May. We have agreed on the formal revision to the national assessment and accreditation criteria for the Quality in Careers Standard as you included in your Strategy and in paragraph 20 of the January 2018 Statutory Guidance.

~~Approved revision  
to the Standard~~

You invited us to do so by the beginning of June.

The Revision is attached – it fully incorporates the Gatsby Benchmarks and the Compass tool and goes further where evidence of an underpinning national careers education framework is required as well as evidence of impact and career-related learning outcomes for young people.

It has been agreed with the Gatsby Foundation, the CEC and your officials at the Department (who have been most helpful in the consultation process).

We will be announcing the revision publicly on Wednesday this week. Once it is public we will be publicising the revision nationally and comprehensively.

Assuring you of our full support for your Careers Strategy.

Yours faithfully,  
Paul

Paul A Chubb, MBE
