

LICENSED AWARDING BODIES

As at 19th June 2019

Schools, Colleges & WBL providers seeking national accreditation through the **Quality in Careers Standard** - the single national CEIAG quality award - are uniquely assessed by occupationally competent Careers Education & Guidance professional external assessors from our **Licensed Awarding Bodies**.

The **Awarding Bodies** are authorised by the Quality in Careers Consortium to assess and accredit learning providers and whose contact details are listed below.

Our advice to help you with your next steps:

- We encourage you to start the *journey of improvement* today by contacting one or more of our **Awarding Bodies**.
- Then you can begin working towards the **Quality in Careers Standard**.

All of our Awarding Bodies have met our Quality in Careers national licensing criteria. Whilst some are linked to a particular geographic area, you'll see that many are available regionally and four are currently available nationally - shown as "*nationally available**" on the list below.

Direct approaches to one or more Awarding Body will answer your questions about availability and costs; and will enable you to compare and contrast their approaches to the journey of quality assurance and the development of outstanding CEIAG.

Across England we currently have over 100 Careers Education & Guidance assessors within our Awarding Bodies - there is no other assessment force of its kind, dedicated to the accreditation of the highest quality CEIAG provision in our country.

So just like you're accustomed to choosing between awarding bodies for educational qualifications (GCSE et al), so too - when embarking upon the Quality in Careers journey - it's your choice now of which Awarding Body you prefer.

You might also wish initially to contact the Quality in Careers Director, Paul Chubb via pac@qualityincareers.org.uk.

If you should encounter any problems at all, please do contact the Quality in Careers Director personally.

The **Licensed Awarding Bodies** for the **Quality in Careers Standard**

and the geographic areas they cover are shown in alphabetical order below
